

ALLIANCE-MIDMED MEDICAL SCHEME

FUNDING CONTRIBUTIONS

Did you know that you as a member directly influence the cost of your medical aid? Yes you do! The members' expenditure incurred by the Scheme, directly impacts the members' financial contributions. One of the main jobs we have as the Scheme, is to ensure reduction of wasteful expenditure and to prevent fraud and abuse. We also need you to support such initiatives, as this directly impacts you financially.

Manage your increases for 2022 by managing your expenses of 2021.

BENEFITS FLU VACCINE

As the temperatures continue to drop with each passing day, we will start experiencing more sniffles. No one knows if you will get the flu this season or not, and if you do, how badly will you get it.

For this reason, we want to encourage you to have your Flu Vaccine as soon as possible, especially if you are a high risk member. All our members qualify for an annual Flu Vaccine.

Go get your Flu shot, it saves lives!

DENTAL DENTAL TREATMENTS

Did you know in 2020, 276 children and 676 adults received dental treatments? 39% of this was preventative, meaning that we prevented major cost by doing the small things, like regular check-ups and fissure sealants for junior members of the Scheme.

The information above clearly indicated the importance of preventative dental work. This is as easy as having your annual dental check-up to ensure everything is still as it should be.

GENERAL WHAT MAKES ALLIANCE-MIDMED UNIQUE?

Our uniqueness is the sum of all the small things we do differently. We treat you as an individual who deserves our most personal attention.

Our helpful team is available on 0860 002 101 and they assist in ensuring you access to the right care from the onset, while containing and minimising any costs that must come out of your pocket. We engage with health professionals that manage the health of our members and we ensure all referrals are done by and to experts whenever necessary.

Because Your Health Matters
